Century Tool Core Competency Statement

Century Tool delivers precision milling, turning, welding, and dependable solutions for mission-critical defense, energy, and industrial equipment. We leverage our experienced personnel, advanced manufacturing technologies, and disciplined production processes to provide reliable, cost-effective components that meet the most demanding specifications.

Core Competencies

- **Advanced Precision Manufacturing**: More than thirty CNC milling machines, CNC lathes, and advanced welding capabilities produce accurate, consistent, high-quality components.
- **Unsurpassed Technical Expertise**: Our technical team collaborates with you to deliver practical engineering knowledge and manufacturing solutions.
- **ISO-Certified Operational Excellence**: ISO 9001:2015 certified facility for exceptional productivity, efficiency, and manufacturing performance.
- **Cybersecurity Maturity Model Certification Level 2**: Self certified to CMMC Level 2 to ensure the physical and digital security of the Department of Defense's Controlled Unclassified Information.
- **Tenacious Customer Commitment**: Responsive and consistent communication, dependable service, and on-time performance.
- Unmatched Culture of Excellence: Engaged, knowledgeable, and accountable employees take pride in their work and contribute to customer success.
- **Rigorous Quality Assurance**: Exacting quality standards and process controls.
- **Exceptional Operational Safety & Reliability**: Safe, organized, and dependable manufacturing environment honed over 60 years.
- **Relentless Continuous Improvement**: Ongoing investment in people, technology, and processes that keep Century Tool competitive.

Our Commitment to You

As your trusted manufacturing partner, Century Tool commits to applying our craftsmanship, technical knowledge, quality workmanship, and customer-focused service to your project. We strive to exceed your expectations with a solution that supports your productivity, profitability, and long-term success.
